

WEST VINCENT
**CLEAN
ENERGY
FUTURE**

THE FUTURE IS
NOW!

With East Pikeland, Schuylkill and West
Pikeland Townships

CHESTER COUNTY
Planning
COMMISSION

Vision Partnership Programming Grant

- Initial application in September 2000 – not awarded
- Second application February 2001 – success! ≈\$70,000
- RFP process, competitive bids, contract written by ChesCo Planning
- Consultant selected – Practical Energy Solutions, West Chester
- Kick-off meeting November 2021
- During this time, all townships were becoming educated on clean energy solutions, documenting community emission data, documenting municipal energy use and assets and developing internal task force teams

West Vincent Township Organization

- RF100 resolution February 2020
- Formed up a Clean Energy Transition Team (CETT) – two from EAC, two from Sustainability Committee
- The CETT has since expanded to seven volunteers
- One lead interacts with other three townships teams to set agenda for monthly consultant meeting, invoices and communication

Scope of Work

- Technical – Refine draft Clean Energy Transition Plan (CETP), municipal facility energy audit, ordinances,
- Outreach - Community
 - Township – Commence clean energy projects, lead by example, publicize
 - Develop new material or organize existing information – RF100, DVRPC, DOE, Phoenixville Regional Comprehensive Plan, Landscapes3, ChesCo CAP
 - Incorporate information on township website and social media
- Outreach – Multi-municipal
 - Investigating Solarize as community opportunity
 - Investigate community solar opportunities
 - Webinars and workshops (e.g., how to weatherize)
 - Joint events, tabling, website to communicate joint effort

Outreach Roundtables

- Begin West Vincent June 2022
- Generate and vet list of key influencers and stakeholders (different)
 - Include adopters and environmentally minded as well as climate deniers
- Roundtable discussions with help of iSpring Associates
- Collate results and incorporate in CETP and communications and educational materials
