Describe the present and original (if known) physical appearance

Only 15 of the original 85 Chester County covered bridges remain today, two of the remaining bridges are shared with Lancaster County and one with Delaware County. Four of the bridges are already listed on the National Register (3 individually, 1 as part of Valley Forge National Military Park), they will be mentioned here for comparison.

<u>Bridge Name & Number</u>	<u>Truss</u>	<u>Year</u>
Rudolph & Arthur (38-15-01)	Burr	1880
Glen Hope (38-15-02)	Burr	1889

Builder/Architect

Statement of Significance (in one paragraph)

According to county records, Chester County once had 85 covered bridges, 21 of which were shared with other counties. The earliest recorded covered bridge in Chester County was built in 1807 and the most recent in 1899. Only 15 covered bridges remain today, the oldest being the Hall's, Sheeder Bridge built in 1850. The covered bridge played an important part in the transportation system of the County throughout the 19th century. Many of the bridges were built to serve local mills and the transportation of agricultural produce to market.

Because Chester's bridges were built under the control of the county very good records of the builders and the cost of construction exist. Before a bridge could be built petitions and competitive bidding were required as well as the overseeing of bridge construction were conducted by the County.

The covered bridge was an important transportation resource in Chester County, the remaining bridges are fine examples of this period in Pennsylvania Bridge technology.
